

# KCYC NEW FOR KIDS

## Stephanie Baca shows dedication to Kids Campus

### Naomie Aguilar Chief Editor

Many of us know Instructional Aide Stephanie Baca, and, for those who don't, she is always in the Game Deck or Learning Arena.

She has been working at Kids Campus for two years. She has not only worked for Kids Campus, but she also attended Kids Campus as a student for 1 ½ years. She was also a part of the original L.I.T. members and has been an advisor for L.I.T. for 2 years. Stephanie has participated in many of the L.I.T. events, and she spends some Saturdays and/or Sundays participating in their

events. She volunteers from about 2 to 6 hours per week at Kids Campus and sometimes helps with second session on her own free time.

She was studying to be an ultrasound technician at Mt. Sac (San Antonio College). She also graduated from Arroyo High School, which is located here in El Monte.

Paulina Tapia stated that, "Stephanie is good worker, she is nice and she lets us have fun while learning." Another student, Celestial Martinez stated that, "She is a very good teacher." Brandon Ochoa said, "She teaches well, she's nice and sometimes has a smile on her face."

## KCYC updates on the American Math Challenge & Clever Crazes

The American Math Challenge has notified Kids Campus of its winners. Those who don't remember, KCYC took part in the AMC back in October of 2010. The challenge was to prepare students for the World Math Event in March 2011. KCYC's top contestant was sophomore Oscar Navarro. Sophomore Daniel Madrigal and fourth grader Rocio Guerrero received recognition for coming in second and third place.

Anyone who has been to the Computer Lab recently knows about the Clever Crazes

website, which teaches students how to stay fit and eat healthy. The website consists of games about nutrition and exercises, which allows students to gain points for a chance to win Nike shoes or iTunes gift cards. As of this week, KCYC has seven winners of \$10 iTunes gift cards, and, more exciting, KCYC has won \$500!!!!

KCYC will be hosting Clever Crazes for the remainder of the month to allow students the possibility to win more prizes. Good luck to all those who take part!

# OPINION PAGE

## Batman: no need for superpowers!

**Miguel Aguilar**  
**Reporter**

Batman is the best superhero ever because he had to fight one of the most challenging super villains of them all! He had to fight the Joker. Joker was one of the hardest villains because he came with a lot of surprises.

Batman does not need superpowers like other super heroes. He is the smartest super hero out there. He protects Gotham City and all the people who live there.

His real name is Bruce Wayne, and he is a millionaire with a butler named Alfred. Alfred knows about Bruce Wayne being a super hero and he helps him out. Alfred makes some of Batman's gadgets and uses Bruce Wayne's money to buy materials to make his gadgets.

Batman is one of the justice league captains. He is the best of the entire justice league, and he should be the only captain.

Bill Finger is the author of the Batman comics; Bob Kane does the illustrations. Batman is a fiction hero, which

means he is not real. The reason he started to fight crime is because his parents got killed, and he swore revenge on this crime. Batman's sidekick's name is Robin, and his real name is Robert. Batman has five major super villains. After he first appeared in comics, he started coming out in TV shows, games, toys, and movies. He even showed up in Pulp magazines, which other heroes did not come out in. That is why he is the best superhero.

Batman is better than Superman because he does not need super powers to help in crime. Batman is also way more intelligent and heroic than Superman, and he has gadgets and a sidekick. Superman does not have a sidekick because he thinks he is the best and he thinks he can defeat anyone on his own. But he CAN'T defeat anyone, and he got killed for thinking that. He got killed by Doomsday.

Superman has a weakness of kryptonite, even though he lived on the planet Krypton. Superman was born with his powers; Batman had to make objects to become powerful. That's why Batman is way better than Superman.

## Superman: fights crime around the world

**Daniel Cativo**  
**Reporter**

Superman is an alien that came to Earth in a space ship. His mom and dad died because their planet, Krypton, was destroyed.

Superman has to do a lot of work. He has a job, and his human name is Clark Kent. Superman has powers and uses them for justice. He protects the world from villains, and his # 1 villain is Doomsday, who happens to kill Superman in the last movie.

People call Superman the man of steel because he got shot in the eye and it didn't do any damage to him. Superman does not need material objects; he has superpowers. Many people think that Batman is better, but it is not true! Batman is a regular person, and fights villains that don't put up a good fight. Does Batman have superpowers? No, right? He could only glide. Superman fights hard villains and goes all around the world to fight crime. Superman does not need to wear a mask; Batman never takes off his mask.

There are many

movies about both superheroes, but I mostly watch Superman's movies. Superman and Batman were enemies, but now they are friends in one movie.

It's not easy to be a superhero; it's very hard because you have to build materials.

When Doomsday came to Earth, he beat the whole Justice team with one hand behind his back. But Maxima was the only guy who ran away. People say Maxima could probably beat him. Superman was the only hero to survive Doomsday's attack; so he tried beating him, and they beat themselves to death.

First, Doomsday fought the black Superman, who is a bad guy that came from the dead. When he fought Doomsday, he died. Doomsday's powers are superhuman strength, super speed and healing abilities.

Doomsday was born in Krypton, but his planet was filled with bad guys, and only the powerful ones survive. The only one who survived was Doomsday, who was born first; then Superman was born and went to Earth. The rest is history!

### How to train your dragon: the best animation movie ever!!!

**Oscar Navarro**  
**Reporter**

According to Wikipedia, *How to Train Your Dragon* is a "2010 computer-animated fantasy film by DreamWorks Animation very loosely based on the 2003 book of the same name."

*How to Train your Dragon* is a fantastic movie for the whole family to watch. At first, I bothered not watching it because I thought it was a silly cartoon movie. I was very wrong about that. Watching this movie was silly, but it was worth watching. Like many people

say, "Never judge a book by its cover."

This movie is about a kid, named Hiccup, who seeks adventure with his troop. They enter a mystery Viking world where Dragons kill anything in its way! After Hiccup captured his first Dragon, he finds that he no longer needs to capture Dragons.

After capturing his first dragon, Hiccup names him Toothless; he is an amazing dragon that is like no other. Of course he can fly and twist, but he is a friendly dragon. How many dragons out there in movies or books are actually

friendly?

To be correct, Toothless is a horrible dragon that only turns friendly with Hiccup while he is petting him. Hiccup feeds toothless fish, fixes his broken wing, and teaches him how to soar through the clouds.

Later during the movie, someone becomes suspicious about where Hiccup has been going out during retreats and fights. Hiccup's dad later finds out the truth, and he is disappointed at him for not slaying dragons.

The father soon meets the queen of all dragons inside

its cave. He finds out the hard way that they never should have waken her up.

A big tragedy occurs and Stoick lets his son join forces with him and fly Toothless. As they try to fight this humongous beast from the deep, deep caves, it becomes harder to defeat.

After watching the movie, it made me watch it again and again! Why? Because that's been the best animation movie I've seen so far!

I recommend everyone to watch this or else you will miss out on the best Dragon movie out there.

### Doomsday and Joker: the best comic book villains

**Simon Chen**  
**Reporter**

Doomsday was born on Krypton long before there was anyone living on Krypton. Krypton was a hard to live in planet and only the best of the best creatures can even have a chance to live there; other than that nothing can. People say that the creatures on Krypton are the most ferocious things in the

galaxy.

Years after Doomsday was born, the planet Krypton blew up because of its radioactive core. When Doomsday got to Earth, he defeated the whole Justice League in minutes. The only one who got away was Maxima. During that time, he saw billboards of wrestling competitions in Metropolis, so he headed for the city.

When Superman found

out, he realized that he could destroy everything in Metropolis, so he quickly reacted and went to Metropolis. Doomsday wanted to destroy Superman, and he learned how to sense all Kryptonians. Doomsday has superhuman strength, speed, stamina, healing and durability, and those powers were enough to destroy the Justice League.

Joker is a character made because of the joker card,

and then they just made sketches until they found one that matched the name. In the first comic, Joker was a maniac. He was supposed to die the time he got out of jail, but he wanted the Joker to be in more comics so the editors decided to let him live for some more comics. In his comic, he left people with an everlasting smile on their faces. In the next comic, he got away seven times and fell off a cliff and wasn't recovered.

### Incredible Hulk: brains and brawn make the better hero

**Jesus Reyes**  
**Reporter**

Hulk, the green hero, also known as the alter ego of physicist, Dr. Bruce Banner, was transformed into the Hulk after being exposed to a blast of a gamma bomb he invented. Because of that, he was transformed into the incredible, great being Hulk, with many special, incredible abilities.

He then transforms into a giant, strong, raging, humanoid monster whenever he gets angry, is in terror, or in grief. Whenever he turns into Hulk, he can't control what he does during transformation. Because he can't control his actions, he mostly causes destruction, which alerts local authorities to try and stop him. Also, they want to use his abilities for other things; for

example, as some sort of weapon, which is why he can't let authorities catch him.

Banner, having to turn into the Hulk from time to time, stresses his life with many problems, such as destruction to many areas and properties. He has many abilities, such as his superhuman strength, speed, stamina, durability, regenerative healing factor, and genius intellect. He is a powerful being

who is a part of the Avengers.

The Incredible Hulk can defeat any enemy with his super abilities, such as Abomination and other enemies he faces. Bruce Banner can use his intellect and strength to be the ultimate hero.

The Incredible Hulk is my favorite hero of all time because of his many abilities, and he has brains and brawn to defeat any villain.

## Chinese New Year: 2011 is the year of the rabbit

**Angel Diaz**  
**Reporter**

If you don't know what Chinese New Year is, also known as the Lunar Festival or Lunar New Year, it is a celebration of the New Year, which is based on a Chinese calendar called the Zodiac.

There are many reasons why people celebrate Chinese New Year, but the most common reason is because they want to be united and welcome the New Year together as a family.

Chinese New Year's celebrations began on 2000 B.C. Chinese New Year has a very long and interesting history. For example, in the Zodiac calendar there is a Black Sheep. Those

who were born in the year of the black sheep are thought to be a contented bunch, wise, elegant and artistic. As you can see, Chinese New Year has many interesting legends and history.

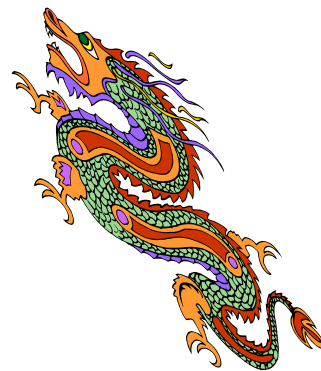

One of the so many ways that people celebrate Chinese New Year is by giving friends and relatives money in red envelopes; this money is called lucky money. They also celebrate by gathering together on Chinese New Year's Eve, when feeling the spirits of the dead ancestors and gathering at the family banquet table.

Another way that they celebrate is by laying out oranges for these ancestors.

Overall, Chinese New Year is a big deal and is celebrated in many different

ways.

This year is the year of the rabbit. In Las Vegas, they are displaying a Palazzo's giant Chinese New Year's rabbit. This is really a sight to see! The rabbit weighs 1,000 pounds and is 16 feet tall.

## Martin Luther King, Jr. remembered

**William Castellon**  
**Business Manager**

Martin Luther King, Jr. was born on the 15th of January, in 1929. He died on April 4, 1968. A man named James Earl Ray murdered him.

In his lifetime, he won the Nobel Peace Prize and the Presidential Medal of Freedom. He made one of the world's most powerful speeches. He wrote a very spectacular, famous quote that said, "I have a dream." Martin Luther King, Jr. was a doctor. Before he was a doctor, he was a minister. He was a minister because his dad inspired him to be a minister.

At the White House, in the Rose Garden on 1983, President Reagan signed a

contract to make a holiday called Martin Luther King Day. When it was first observed on the day of January 20, 1986, President George H. W. Bush proclaimed that Martin Luther King Jr's. Holiday was to be moved to the third Monday of January.

Martin Luther King is one of the reasons that there is peace in the United States. He did not like the people with white skin color to bully, push around and especially separate themselves from the people with different skin color.

Had it not been for people like Martin Luther King, Jr., African Americans would not be able to drink from the same water fountains as everyone else, and they would not go to the same schools either.

## Students raise cancer awareness

**Jaileen Loza**  
**Reporter**

Do you know what cancer is? There are many definitions for the term cancer. One of them is "a malignant tumor or abnormal growths that rises cancer."

Did you know there are more than 200 types of cancer? Unfortunately, there is not a cure for all types of cancer, like skin cancer. Only seven out of ten kids are cured for cancer.

One of the best ways to prevent cancer is to quit smoking and chewing tobacco or never start because it can cause lung cancer. Also, tomatoes help prevent breast cancer, but you should still eat 5 servings of fruits and vegetables every day.

Another way to prevent cancer is by exercising 30 minutes a day for 5 days a week. Also, artichokes are a

great source of silymarin, an antioxidant that may help prevent skin cancer, according to <http://rd.com/health/31-simple-ways-to-prevent-cancer>. The last thing you should always do is to go to the doctor to get a yearly physical exam; that way you know what's going on with your body.

Many things can cause cancer. Swordfish and shark can cause cancer because they have too much mercury, according to [ask.com/Health/Diseases/what\\_foods\\_cause\\_cancer](http://ask.com/Health/Diseases/what_foods_cause_cancer). Cancer is hereditary, which means that it can be passed down from generation to generation. The sun's rays can cause cancer because they burn your skin.

Cancer arises out of normal cells in the body, and can develop in almost any organ or tissue, such as the lungs, colon, breasts, skin, bones, or nerve tissue.

# Facts about Mt. Everest, the tallest mountain in the world

**Mark Mata**  
**Reporter**

Do you know what the biggest mountain in the world is? It is Mt. Everest.

Mt. Everest is located in India, Nepal, and it the tallest peak in the world. The height of the mountain is 29,141 feet; it's so high that many people are interested to climb it. More than one hundred forty people didn't make it to the top.

When people climb any kind of mountain, they need to buy an oxygen tank.

Scientists believe that the mountain started growing 60 million years ago. If you don't know, India use to be an island. It was moving slowly when it finally hit Asia, which created Mt. Everest, and it got its name from Sir George Everest in 1865. If you think that when India and Asia crashed it was all over, you're wrong. Every year Mt. Everest grows two inches, so that means every year it gets a new measurement. Mt. Everest is blocking India and Asia, and that means if they want to get to the other border, they have to go

around.

When people climb up there it is 97 degrees below Fahrenheit. It is so cold that when you spit, it freezes when it is about to hit the floor. There are animals that live on the mountain, such as deer, black bears, and even monkeys.

No human can survive a lifetime in the mountain. They have to take many sweaters, blankets, and oxygen to breath easily. If they climb to the top of Everest, I'll call them crazy, but they accomplished something amazing.

# Fitness Club shows improvement in students' health

**William Castellon**  
**Business Manager**

Currently in the Fitness Club, members have been improving on their weight and eating better. As a member of the club, I would say that we have made a lot of improvement, and we are really getting healthy.

Our club captain is Naomie Aguilar, our co-captain is Reynaldo Alejo. Our fund raising captain is Julio De La Cruz. We are the first fitness club and I think we had the best members to start with.

In the Fitness Club, our club leader and supervisor, Vincent Phan, has got club members to start going healthy and has helped people get fit. All of the members have improved and have stayed like

that. The member that has improved the most, in Vince

Phan's opinion, is Christian Alarid. Vince said it was

Christian because he came in with the most weight and is now losing weight. Another reason is that he is now eating healthier. Vincent also said that the one with the best sportsmanship overall is Reynaldo Alejo. The best runner would be Julio De La Cruz.

On Monday meetings, the Fitness Club has their work out day, or they will go to the patio and eat something that is healthy. On Friday meetings, we go outside of Kids Campus Youth Center and run down the block. Alternatively, they play a game inside the gym.

In the Fitness Club, we will now do fundraisers. They will now participate in charities, such as the Relay for Life and Jump Rope for Heart.

# Nathan gives his Superbowl predictions

**Nathan Garcia**  
Reporter

There are a lot of things I'm expecting from Superbowl forty-five. I really want to see the Atlanta Falcons make it to the Superbowl because they really have a great team. I would also like to see the Pittsburgh Steelers because they have a lot of power in running and throwing. Those are

just my opinions, but you might think differently.

The teams who are in the playoffs are Baltimore Ravens, Pittsburg Steelers, New York Jets, and New England Patriots from the AFC division. From the NFC division, the Green Packers, Atlanta Falcons, Seattle Seahawks, and the Chicago bears made the playoffs. The first Sunday of February is the Superbowl and it's on February the 6<sup>th</sup>.

Now that the Falcons are out of the playoffs/ championship, I really want to see the Pittsburg Steelers take it all the way to the Superbowl. I really want to see the Steelers beat the New York Jets because the Steelers have a really good team because they have good running and passing strategies.

I also want to see the Chicago Bears go to the Superbowl and face off the Steelers. It's great to see the teams win

the trophy and take it home all the way back to their home town.

There are going to be a lot of people there. I am a fan of the Buffalo Bills because of a man named Bruce Smith because he is in the Hall of Fame.

I really hope I see the Pittsburg Steelers and the Chicago Bears to face off in the Superbowl and the STEELERS are going to take it all the way!!!!!!
